## YOUR COLLEAGUES SAY IT BEST!

*The best aspect of Horizon's program is the ability to insert instructor-generated material into the body of the text, rather than at the end of each chapter. In this way, my material can be read in context.*

— Dr. Duarte, North Idaho College

*I accomplish between 30% and 50% more than I did when I had to explain all the material in class that is now in the textbook. Student comprehension and achievement have greatly improved.*

— Dr. Worrell, Brigham Young University

*After 4 years with my Horizon customized textbook, I've witnessed an increase in both grade point averages and instructor evaluation scores. Thanks, Horizon!*

— Dr. Blount, Gaston College

*Horizon enabled me to tailor the text and the presentation of material to meet the needs of my students and my own pedagogical approach. My only regret is that I was not made aware of this program sooner.*

— Dr. Mitchell, Somerset Community College

*Horizon's Custom Publishing Program is innovative, user-friendly, and professional. I have customized two textbooks with them, and the experience has been pleasant both for me and my learners.*

— Dr. Sarri, University & Community College System of Nevada
